

ZULFIANA RAHMI

Depok, Indonesia | 089531853156 | zulfianarahmi4@gmail.com | [LinkedIn](#) | [Portfolio](#)

EDUCATION

Universitas TerbukaIndonesia

Bachelor of Information Systems, GPA: 3.36/4.00Expected Sept 2026

- Honors: AI Engineers Digistar x Telkomathon #10; Top Mentee for Soft Skills among 200 interns at Telkom Indonesia; Super +LEADer Award, LEAD+ Batch 2 by UNDP Indonesia; Intermediate Cybersecurity & Gen AI Scholarship Recipient, IDCamp 2024 & 2025
- Hackathon: Represented university in the Alibaba AI Hackathon

Study Abroad Coursework in Artificial IntelligenceRemote, Indonesia

Bina Nusantara University (BINUS) – Advanced AI Coursework (COMP6275036), Scholarship Recipient; Pradita University – AI Coursework (PRx.IF24)Feb – Jul 2024

SMK AI AsyiahIndonesia

High School Diploma, Computer Software Engineering, GPA: 85/100Jun 2021

- Ranked 1st in class for 3 consecutive years; Chairperson of Computer Extracurricular Club

EXPERIENCE

Alto NetworkJakarta, Indonesia

L2 Security InternMar 2026 – Present

- Developed SIEM automation workflows using low-code orchestration tools to streamline alert handling, notifications, and repetitive security operations tasks
- Prepared recurring EDR visibility summaries and operational findings to support endpoint security reporting and internal review
- Built reminder and notification automation for cloud security posture follow-up activities, improving task tracking and response discipline
- Collaborated with security analysts and platform owners to translate operational needs into maintainable automation flows

Telkom IndonesiaJakarta, Indonesia

Cyber Security Engineer InternAug 2025 – Jan 2026

- Engineered automated security workflows using n8n to streamline threat intelligence data processing and incident response
- Identified and automated repetitive manual tasks, reducing time spent on routine security checks and improving operational efficiency
- Earned “Top Mentee for Soft Skills” award among 200 interns for adaptability, professional communication, and performance

PT. Satya Putra BangsaDepok, Indonesia

Administrative StaffApr 2023 – Jul 2025

- Validated and cross-verified operational logistics data, ensuring 100% accuracy for organizational reporting and audit readiness
- Managed secure processing and storage of sensitive personnel records, maintaining strict confidentiality standards
- Administered petty cash and financial record-keeping, ensuring full accountability across all departmental transactions
- Implemented standardized digital filing systems that improved information retrieval efficiency and data organization

TECHNICAL PROJECTS

Project Ghost-Hunter: Hybrid Threat Hunting Experiment [github →](#)

- Built a proactive threat hunting simulation for a FinTech-inspired infrastructure, detecting multi-stage stealth attacks using LOLBins techniques and DNS tunneling
- Built an open-source telemetry stack (ELK, Wazuh, Sysmon, Velociraptor, Zeek) that reduced detection visibility from an industry baseline of 200+ days to approximately 2 days

AI-Driven Learning Design Automation System [github →](#)

- Designed a modular LLM data pipeline for a B2B SaaS prototype automating corporate training syllabus design, including document ingestion, PII sanitization, and JSON output guardrails

Automated External Attack Surface Discovery Suite [medium →](#)

- Developed a modular Python-based reconnaissance pipeline automating the initial phases of Vulnerability Assessment and Penetration Testing (VAPT), including asset mapping and WAF/rate-limiting bypass

Automated Honeypot Intelligence [medium →](#)

- Built an automated threat intelligence system combining a honeypot with VirusTotal API v3 for real-time attacker IP investigation and visual PDF-based reporting

Web Application Penetration Testing (OWASP Juice Shop) [medium →](#)

- Conducted a security audit on OWASP Juice Shop, identifying and exploiting OWASP Top 10 vulnerabilities and mapping findings to ISO 27001 and NIST GRC frameworks

LEADERSHIP & PROGRAMS

Project Ghost-Hunter – Futuremakers Youth Employability Programme2026

Lead Hunter

- Led a proactive threat hunting simulation for a FinTech-inspired infrastructure
- Directed investigation workflows across ELK, Wazuh, Sysmon, Velociraptor, Zeek, Atomic Red Team, and dnscat2
- Secured 2nd place in the Standard Chartered Foundation Futuremakers Youth Employability Programme

Telkomathon Final Project2026

AI Backend / Data Engineer

- Designed the modular LLM data flow for an AI-driven learning design automation system
- Implemented document ingestion, PII sanitization, strict JSON guardrails, and final DOCX generation logic
- Secured 3rd place with a B2B SaaS prototype for corporate learning design automation

Google Cloud Arcade 2025 *Remote*

Facilitator (Contract)Jul – Sep 2025

- Mentored diverse participants on core cloud infrastructure, AI/ML, and data engineering principles, providing hands-on support for complex lab troubleshooting and certification readiness

Women in Tech Security Mentorship Program 2025*Remote*

Group Leader, Technical Track AJun 2025 – Jul 2025

- Led Technical Group A in offensive and defensive cybersecurity tracks
- Coordinated team facilitation and weekly progress updates throughout the program

Google APAC Community Event (GDG Polsri Code 1)*Remote*

Project ManagerMar 2025 – May 2025

- Directed a 3-member cross-functional team in executing a project for the Google APAC community competition
- Tracked timelines and task progress using Agile-inspired workflows and Jira, facilitating brainstorming sessions to resolve bottlenecks

Google Developer Group Bootcamp – Universitas Gunadarma*Remote*

Project Manager & Backend DeveloperMar 2025

- Led a 2-member team to deliver the “Notely” backend service within a 1-month bootcamp timeline, contributing to core backend logic in Node.js and Express

SKILLS & INTERESTS

Security & Tools: SOC Operations, SIEM Monitoring, VAPT (OWASP Top 10), n8n Workflow Automation, Wazuh, Metasploit, OSINT, Jira

Programming & AI: Python, SQL, Bash, LLM Pipeline Design, Deep Learning (CNN), Machine Learning

Infrastructure & Cloud: Docker, Linux (Ubuntu/Kali), Google Cloud Platform, Git

Languages: Indonesian (Native), English

Interests: Cybersecurity Blue & Red Team, CTF Competitions, OSINT, Machine Learning Research

CERTIFICATIONS

- TryHackMe – Jr Penetration Tester Certificate (2026)
- Cisco – Junior Cybersecurity Analyst Career Path (2026)
- ID-Networkers – Cyber Security Penetration Testing Bootcamp (2026)
- IDCamp Indosat Ooredoo Hutchison – Cybersecurity Essentials, Intermediate Level (2026)
- IDCamp Indosat Ooredoo Hutchison – Gen AI Engineer, Intermediate (2026)
- Google Cybersecurity Certificate – Foundations, Risk Management, and Network Security (2025)
- NIST SP 800-53 – Security and Privacy Controls (2026)
- Qualys – PCI Compliance (2026)
