Education

UNIVERSITAS TERBUKA

Indonesia

Bachelor of Information Systems. GPA: 3.36/4.00

Expected Sept 2026

Honors: AI Engineers Digistar x Telkom Athon #10; Top Mentee for Soft Skills interns at Telkom Indonesia; Super +LEADer Award LEAD+ Batch 2 by UNDP Indonesia; Intermediate Cybersecurity & Gen AI Scholarship Recipient IDcamp 2024 & 2025.

Hackathon: Represented university in the Alibaba AI Hackathon

STUDY ABROAD

Remote, Indonesia

Study abroad coursework in Artificial Intelligence:

Feb 2024 – Jul 2024

Bina Nusantara University (BINUS): Successfully completed advanced Artificial Intelligence coursework (COMP6275036) as a scholarship recipient.

Pradita University: Completed Artificial Intelligence coursework (PRx.IF24)

SMK AI ASIYAH

Indonesia

High School Diploma in Computer Software Engineering. GPA: 85/100

Jun 2021

Ranked 1st in class for 3 consecutive years; Chairperson of Computer Extracurricular Club

Experience

TELKOM INDONESIA

Jakarta, Indonesia

Cyber Security Engineer (Intern)

Aug 2025 – Jan 2026

- **Engineered** automated security workflows using n8n to streamline threat intelligence data processing and incident response.
- **Optimized** operational efficiency by identifying and automating repetitive manual tasks, significantly reducing time spent on routine security checks.
- **Collaborated** with cross-functional teams to integrate security automation into existing monitoring infrastructures.
- **Facilitated** technical knowledge sharing and demonstrated exceptional professional communication, earning the "Top Mentee for Soft Skills" award.

PT. SATYA PUTRA BANGSA

Depok, Indonesia

Administrative Staff

Apr 2023 – Jul 2025

- **Validated** and cross-verified operational logistics data to ensure 100% accuracy for organizational reporting and audit readiness.
- **Managed** the secure processing and storage of sensitive personnel records while maintaining strict confidentiality standards.
- **Administered** petty cash and financial record-keeping to ensure full accountability in all departmental transactions.

Technical Projects

Automated External Attack Surface Discovery Suite

2026

- Developed a Python-based modular reconnaissance pipeline to automate asset mapping and bypass security protections like WAF/Rate Limiting.

Global Brute Force Monitoring System (Siem)	2026
Architected a real-time SIEM system to monitor global authentication attacks, mapped to the MITRE ATT&CK (T1110) framework.	
Automated Honeypot Intelligence	2026
Built a Python-driven honeypot with VirusTotal API integration for automated IP enrichment and incident reporting.	
VAPT: OWASP Juice Shop Audit	2025
Conducted a security audit based on OWASP Top 10 and mapped vulnerabilities to ISO 27001 and NIST GRC frameworks..	
Phishing Web Detection using CNN	2025
Developed a CNN-based Deep Learning model to identify fraudulent websites through visual similarity and UI inconsistency analysis.	
TechMateBot Cloud Assistant	2025
Implemented a Python/Telegram API chatbot to automate cloud resource management and administrative workflows.	

Leadership and Activities

Women In Tech Security Mentorship Program 2025	Remote
Group Leader - Technical A	Jun 2025 – Jul 2025
Led Technical Group A in cybersecurity tracks, focusing on both offensive and defensive security operations. Managed team dynamics and facilitated technical discussions using Agile-inspired workflows and tools like Jira to track progress.	
Google Apac Community Event (Gdg Polsri Code 1)	Remote
Project Manager	Month Mar 2025 – May 2025
Directed a 3-member cross-functional team in executing a project for the Google APAC community competition. Monitored project timelines and individual task progress to ensure on-time delivery while facilitating brainstorming sessions to resolve bottlenecks.	

Skills & Interests

Technical: Security & Tools: n8n, Wazuh, SIEM Monitoring, VAPT (OWASP Top 10), OSINT, Metasploit, Jira.

Programming & AI: Python (Scripting, Scikit-learn, OpenCV), SQL, Deep Learning (CNN), Machine Learning.

Infrastructure & DevOps: Docker, Linux (Ubuntu/Kali), Cloud Computing (GCP), Git
Language: Indonesian, English

Interests: Cybersecurity Blue and Red Team, CTF Competitions, Open-Source Intelligence (OSINT), Machine Learning Research.
