PROFESSIONAL SUMMARY

Passionate cybersecurity professional specializing in Security Operations (SecOps), Blue Teaming, and Cyber Defense. I am dedicated to developing efficient, secure, and scalable systems through hands-on experience in Linux, DevOps, and scripting. My focus is on building robust defenses against modern threats, and I actively seek opportunities to collaborate and innovate in this field.

CORE COMPETENCIES

Cybersecurity Fundamentals

- Cisco Cybersecurity Certified
- Basic Network Administration

Cloud & DevOps

- Google Cloud Platform (GCP)
- Oracle Cloud Infrastructure
- Python Scripting for Automation
- Bash Shell Scripting

Collaboration & Leadership

- Agile Project Management (Jira)
- Cross-functional Team Coordination

PROFESSIONAL EXPERIENCE

CYBER SECURITY ENGINEER (INTERN) | TELKOM INDONESIA | 08/2025– PRESENT

Developed and implemented automation workflows for SecOps tasks

ADMINISTRATIVE STAFF | PT. SATYA PUTRA BANGSA | APR 2023 – JULY 2025

- Implemented a digital document management system with standardized protocols, improving file retrieval efficiency by 30%
- Generated 50+ data-driven reports using advanced spreadsheet functions, supporting executive decision-making with 99% accuracy
- Maintained 100% financial accuracy for petty cash management through rigorous tracking systems
- Spearheaded data quality initiatives that improved company-wide data integrity from 95% to 99% within 6 months

GROUP LEADER – TECHNICAL A | WOMEN IN TECH SECURITY MENTORSHIP PROGRAM 2025 | 06/2025– 07/2025

- Leading Technical Group A in the cybersecurity technical track (offensive & defensive).
- Responsible for team coordination, facilitating discussions, and weekly progress updates.

PROJECT MANAGER (GDG POLSRI CODE 1) | GOOGLE APAC COMMUNITY EVENT | 03/2025 – MAY 2025

- Leading a 3-member cross-functional team in executing Google's APAC
- Implemented Agile workflows using Jira and Notion, improving team task completion rate by 40%

PROJECT MANAGER & BACKEND DEVELOPER (TIM 2) | GOOGLE DEVELOPER GROUP BOOTCAMP - UNIVERSITAS GUNARDARMA | 03/2025

- Led a 2-member team in developing a notes application backend using Node.js, Express, and TypeScript, delivering all features on schedule.
- Built CRUD APIs, achieving 100% data consistency for the team's module.
- Implemented Agile workflows using Jira, reducing task completion time by 25% through daily standups and priority management.

.EDUCATION

UNIVERSITAS TERBUKA – BACHELOR'S DEGREE IN INFORMATION SYSTEMS | 09/2022 – PRESENT

SMK AL ASIYAH – COMPUTER SOFTWARE ENGINEERING | 06/2018 - 06/2021

CERTIFICATIONS & TRAINING

Cloud

- Google - Connect and Protect: Networks and Network Security (Agustus 2025)
- Google - Foundations of Cybersecurity (Agustus 2025)
- Google - Play It Safe: Manage Security Risks (Agustus 2025)
- The Linux Foundation - Understanding the OWASP® Top 10 Security Threats SKF100
- Cisco - Cybersecurity Essentials (Juli 2024)

Cloud

- Oracle Cloud Certified (2024)
- Cisco Cybersecurity & Networking (2024)

Data

- IBM Database Admin (2024)
- MySQL Bootcamp (2024)
- Python Data Analysis (2024)

Leadership

- UNDP +LEADers (2025)

TECHNICAL PROJECTS

Web Application Penetration Testing (OWASP Juice Shop)

Malware Analysis & Reverse Engineering

Network Penetration Testing (Lab Environment)

Phishing Image Detection (Proof-of-Concept)

Applied Cryptography Analysis

TechMateBot Cloud Assistant (Python/Telegram API)
