PROFESSIONAL SUMMARY

Information Systems student with a growing focus on Security Operations (SOC) and Penetration Testing. Gained foundational experience in building security automation workflows using n8n. Actively developing technical expertise through Google and Cisco certifications, with a strong interest in contributing to and learning within a professional cyber defense environment.

CORE COMPETENCIES

Cybersecurity Fundamentals

- Foundational SOC Operations
- Basic Network Security & Administration
- Web Application Security Concepts (OWASP)

Automation & Tools

- Workflow Automation (n8n)
- Python Scripting for Task Automation
- Basic Bash Shell Scripting
- Google Cloud & Oracle Cloud Infrastructure

Collaboration & Leadership

- Agile Project Management (Jira)
- Cross-functional Team Coordination
- Technical Group Leadership

PROFESSIONAL EXPERIENCE

CYBER SECURITY ENGINEER (INTERN) | TELKOM INDONESIA | 08/2025– PRESENT

- Designed security automation workflows using workflow automation platforms to streamline cybersecurity operations
- Developed automated processes to enhance security operations monitoring and data processing workflows
- Assisted the security team in identifying and automating repetitive manual tasks to improve operational efficiency
- Awarded as a Top Mentee for Soft Skills among 200 interns for demonstrating exceptional adaptability, professional communication, and performance during the internship.

ADMINISTRATIVE STAFF | PT. SATYA PUTRA BANGSA | APR 2023 – JULY 2025

- Performed rigorous cross-verification and validation of operational data to ensure 100% accuracy for organizational logistics and reporting.
- Managed the secure processing and storage of sensitive organizational documents and personnel records, maintaining strict confidentiality standards
- Oversaw petty cash management and financial record-keeping, ensuring full accountability and accuracy in all transactions.
- Implemented standardized digital filing systems that improved information retrieval efficiency and supported overall data organization
- Contributed to the preparation of internal reports and audit documentation, ensuring alignment with organizational protocols.

GROUP LEADER – TECHNICAL A | WOMEN IN TECH SECURITY MENTORSHIP PROGRAM 2025 | 06/2025– 07/2025

- Leading Technical Group A in the cybersecurity technical track (offensive & defensive).
- Responsible for team coordination, facilitating discussions, and weekly progress updates.

PROJECT MANAGER (GDG POLSRI CODE 1) | GOOGLE APAC COMMUNITY EVENT | 03/2025 – MAY 2025

- Led a 3-member cross-functional team in executing a project for a Google APAC community competition
- Managed project timelines and monitored individual task progress through direct coordination to ensure on-time delivery.
- Facilitated team communication and brainstorming sessions to maintain project alignment and resolve bottlenecks.
- Utilized Agile-inspired workflows and tools like Jira to track team completion rates and maintain organized documentation.

PROJECT MANAGER & BACKEND DEVELOPER (TIM 2) | GOOGLE DEVELOPER GROUP BOOTCAMP - UNIVERSITAS GUNARDARMA | 03/2025

- Led a 2-member team to develop a "Notely" backend service, ensuring all milestones were met within a 1-month intensive bootcamp timeline.
- Contributed to the codebase by refining and editing core backend logic using Node.js and Express, ensuring the API remained functional for the team's requirements.
- Managed the project's structure and coordinated daily updates to maintain development momentum and clear communication between team members.

.EDUCATION

UNIVERSITAS TERBUKA – BACHELOR’S DEGREE IN INFORMATION SYSTEMS | 09/2022 – PRESENT

SMK AL ASIYAH – COMPUTER SOFTWARE ENGINEERING | 06/2018 - 06/2021

CERTIFICATIONS & TRAINING

Cloud

- Google - Connect and Protect: Networks and Network Security (Agustus 2025)
- Google - Foundations of Cybersecurity (Agustus 2025)
- Google - Play It Safe: Manage Security Risks (Agustus 2025)
- The Linux Foundation - Understanding the OWASP® Top 10 Security Threats SKF100
- Cisco - Cybersecurity Essentials (Juli 2024)

Cloud

- Oracle Cloud Certified (2024)
- Cisco Cybersecurity & Networking (2024)

Data

- IBM Database Admin (2024)
- MySQL Bootcamp (2024)
- Python Data Analysis (2024)

Leadership

- UNDP +LEADers (2025)

TECHNICAL PROJECTS

Web Application Penetration Testing (OWASP Juice Shop)

Malware Analysis & Reverse Engineering

Network Penetration Testing (Lab Environment)

Phishing Image Detection (Proof-of-Concept)

Applied Cryptography Analysis

TechMateBot Cloud Assistant (Python/Telegram API)
